

Oculi family infrastructure

The diagram illustrates a conceptual model with the following components and relationships:

- management center** (purple box) contains:
 - ACCOUNTER** (orange box)
 - HR** (orange box)
 - CEO** (orange box)
- S Card** (purple box) contains:
 - user** (blue box)
 - Attributes: first name, middle name, last name, birth location, date of birth, national number, current address, social status, academic status, gender, nationality, position, work starting date, CV.
- task user** (blue box) contains:
 - task** (teal box)
 - user** (blue box)
 - position in IT** (white box)
- task** (teal box) contains:
 - Attributes: name, detail, status OS, file.
 - task message** (white box) contains:
 - chat** (orange box)
 - task** (teal box)
 - to** (blue box)
 - message** (white box)
- version** (red box) is a central hub connected to:
 - version group** (green box) contains:
 - group** (green box)
 - version** (red box)
 - version admin** (blue box) contains:
 - employee user** (blue box)
 - version** (red box)
 - version file** (pink box) contains:
 - file** (white box)
 - user of file** (blue box)
 - version** (red box)
 - Project** (orange box) contains:
 - name** (white box)
 - type** (white box)
 - icon** (white box)
 - build Extension** (yellow box) contains:
 - name** (white box)
 - version** (red box)
 - Extension package file** (pink box) contains:
 - Extension package** (yellow box)
 - file** (white box)
 - Extension package** (yellow box) contains:
 - name** (white box)
 - version** (red box)
 - new** (pink box) contains:
 - version** (red box)
 - name** (white box)
 - question** (pink box) contains:
 - user** (red box)
 - file** (white box)
 - about** (white box)
 - answer** (pink box) contains:
 - user** (red box)
 - question** (red box)
 - file** (white box)
 - about** (white box)
- question image** (white box) contains:
 - question** (red box)
 - image** (white box)
- answer image** (white box) contains:
 - answer** (red box)
 - image** (white box)
- article** (purple box) contains:
 - title** (white box)
 - about** (white box)
 - subject** (orange box)
 - Project** (orange box)
- paragraph** (cyan box) contains:
 - paragraph image** (white box)
 - paragraph** (cyan box)
 - file** (white box)
- repository** (purple box) contains:
 - name** (white box)
- partition** (purple box) contains:
 - name** (white box)
 - repository** (purple box)
- file** (white box) contains:
 - name** (white box)
 - file** (white box)
- group user** (green box) contains:
 - group** (green box)
 - employee user** (blue box)
- group admin** (green box) contains:
 - group** (green box)
 - employee user** (blue box)
- department** (red box) contains:
 - name** (white box)
 - department** (red box)
 - manager** (yellow box)
- user** (blue box) is a standalone entity.

Relationships are indicated by lines connecting the boxes, showing a complex network of dependencies and associations between the various entities and their attributes.
